OUR SUBSIDIARIES

NEU-JKF Automation specialises in industrial automation design (industrial and tertiary programmable controllers, supervision, acquisition, field networks, etc.).

JKF develops and manufactures a complete range of high-quality filters, fans and airflow components.

NEU-JKF Wood Industry is the specialist in the wood industry. Thanks to its expertise in the world of wood and its mastery of the various processes, NEU-JKF Wood Industry offers the best aspiration and dust removal solutions.

NEU-JKF Fevi designs and manufactures industrial process fans (centrifugal or axial)

NEU-JKF
Dedicated to clean air

NEU-JKF Delta Neu designs, manufactures and markets solutions and equipment for air purification (dust removal, filtration, local and general ventilation, etc.) and waste extraction systems.

NEU-JKF Process designs and manufactures fully automated pneumatic transfer and processing systems for bulk products (powder or granules).

**SUPPORT THROUGHOUT
THE PROJECT, FOCUSING ON:**

- Installation of long-lasting systems, with guaranteed performance
- Innovative key equipment from our latest technical developments
- Energy savings
- Compliance with current regulations
- Protecting people, their industry and their environment
- A Customer Service dedicated to your installations
